

Get My Wallet Out Of Your Vagina

Exclusive to Rense.com

By Devvy

4-17-11

The recent budget battle for public consumption brought out high political theater and the usual well fed herds of bovine shouting their ignorance for all the world to see. Some of the loudest manure defecated by the vast herds of cattle focused on making sure the Outlaw Congress continues to fund murdering unborn babies and "women's issues" was propped up by males who lie through their teeth [because their very paycheck depends on my wallet](#) (and yours)

"In lobbying for defeat of a congressional plan that would cut off taxpayer support for the abortion business' leading player, Richards claimed: "If this bill ever becomes law, millions of women in this country are going to lose their health-care access not to abortion services to basic family planning, you know, mammograms." But Live Action workers who called 30 Planned Parenthood business locations across the nation said "every single one admitted they could not do mammograms."

I will never have a mammogram, but having one is a personal decision and expense. The Outlaw Congress has NO authority to steal the fruits of your labor to fund abortions or mammograms.

Spineless, sissy boy, Sen. Harry Reid, proclaimed he would shut down the General Government if the Outlaw Congress didn't vote to continue breaking the law by funding the vile Planned Parenthood and their abortion mills. Morally depraved, Sen. Chuck Schumer, said that "we" will "never, never, never" defund Planned Parenthood! Blow a rod, Chuckie?

[This short video](#) hosted by the most vacuous female cable host on the boob tube, Joy Behar, demonstrates the absolute stupidity of Americans regarding the U.S. Constitution.

Behar proclaimed Planned Parenthood could save your life with a cervical cancer test. Jerry Springer was one of her guests who spouted off how important PP is for women. I suppose he's an expert since his television show broadcasts some of the filthiest and most degrading behavior by women ever seen on the public air waves.

Having a test for cervical cancer is a personal expense. The Outlaw Congress has NO authority to steal the fruits of your labor to pay for one. Last year (as cited in the first link above), PP was illegally given \$363 MILLION BORROWED dollars stolen from we the people. Yes, borrowed dollars because the congressionally created "national debt" was slightly over \$13 TRILLION dollars. As stated in a press release by Concerned Women for America: "That's almost one million dollars per day Americans are spending to prop up a leftist organization with profits of \$63 million."

The herds of grazing cattle who only raise their heads when abortion funding is threatened are too stupid to understand that million borrowed dollars a day gets slapped right back at them in higher taxes.

"How many times have we heard female politicians bleat about "women's issues" during elections? How many times have we heard the old chant about "empowering women" from female members of Congress? The feminization of Congress and our state legislatures is destroying constitutional government, running America into oceans of unpayable debt and breeding generations of helpless women, whining for mother government to take care of them and their every need.

"The U.S. Constitution, specifically Article 1, Section 8, specifically enumerates the only areas where Congress can legislate. There are no "women's issues" in that section of the Constitution. That eliminates education, altering the Second Amendment, after-school programs, studies for breast feeding, child care and a thousand other areas where women in elected office have been unconstitutionally introducing and passing bills for decades. The resultant laws have saddling all of us with unpayable debt."

[I wrote that back on March 18, 2005](#) and nothing has changed.

The legions of females out there are herded in the desired direction with promises of stealing from the people's treasury for their wants and needs. All those "independent, strong women" are nothing but whiners demanding the fruits of your labor. Real women take care of the babies they bring into this world. Real women know that family planning means keep your panties on and being a responsible adult. Strong, independent women do not demand mother government steal from taxpayers to fund their personal lives. Strong and independent? Horsecrap. Strong, independent women do not demand someone else pay their way whether it's health care, day care or "basic family planning."

Congress says you must because its the law! [Why, go look at Title X](#) :

"The Title X Family Planning program ["Population Research and Voluntary Family Planning Programs" (Public Law 91-572)], was enacted in 1970 as Title X of the Public Health Service Act. Title X is the only federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services. The Title X program is designed to provide access to contraceptive services, supplies and information to all who want and need them. By law, priority is given to persons from low-income families.

"The Title X Family Planning program is administered within the Office of the Assistant Secretary for Health, Office of Population Affairs (OPA) by the Office of Family Planning (OFP). In fiscal year 2010, Congress appropriated approximately \$317 million for family planning activities supported under Title X. At least 90 percent of the appropriation is used for clinical family planning services as described in the statute and regulations (45 CFR Part 59).

"In calendar year 2010, 90 Title X grantees provided family planning services to more than five million women and men through a network of more than 4,500 community-based clinics that include State and local health departments, tribal organizations, hospitals, university health centers, independent clinics, community health centers, faith-based organizations, and other public and private nonprofit agencies. In approximately 75% of U.S. counties, there is at least one clinic that receives Title X funds and provides services as required under the Title X statute."

Here's a clue for the clue less like Joy Behar and the rest of the whining gimmee-gimmee females in this country led on by Marxists like Nancy Pelosi, Hillary Clinton and illegal alien, Rep. Loretta Sanchez: Just because the Outlaw Congress passes a "law" doesn't mean it's constitutional. Go read the U.S. Constitution. No where does it authorize the U.S. Congress (Art. 1, Sec. 8) to steal from the public treasury to fund "Title X" OR v [this putrid rape](#):

"United States Agency for International Development (USAID) works in over 60 countries to provide economic, development and humanitarian assistance around the world in support of the foreign policy goals of the United States. USAID works to support global health and is one of the main contributors to family planning and reproductive health services worldwide. USAID also implements integrated Population, Health and Environment (PHE) Projects in the field, which acknowledge and address the complex connections between humans, their health, and their environment. Find out more about how the Sierra Club has conducted international study tours since 2003 to visit and learn from integrated PHE projects in the field."

USAID (United States Aid for International Development) is an illegal agency under the U.S. Constitution. Is \$3.50 a gallon gas hurting your budget? Having trouble making your house payment? Can't afford dental care for your children? Every penny stolen from you via the IRS goes to pay down the congressionally created "national debt" with the rest going for what is called transfer payments. That means the fruits of your labor are stolen to illegally rob the people's purse to provide "family planning" to countries around the world. Is that what you work for everyday? I guess it doesn't bother most Americans because they reelected 82% of the same career politicians in November 2010 who have allowed this illegal funding to continue.

If your member of the Outlaw Congress (just like the constitutionally challenged political career animal who "represents" me, Randy Neugebauer) voted for one penny for Title X, they have violated their oath of office and the law of the land. Of course, that means nothing to tens of millions of Americans with their hands out for "government money". Well, Uncle Sugar's teat is running on bankruptcy.

There will always be low income families. Perhaps this idea might light up the gray matter between the ears of all those whining females who believe they are somehow "entitled" to steal the fruits of your labor to pay for their personal lives: Stop the withholding tax so all Americans can take home their full paycheck instead of handing it over to the thieves in Washington, DC:

[Demand Congress stop withholding taxes now](#)

During the "budget battle" we saw a display of disgusting magnitude. Females who proclaimed: Sluts for Choice. Think I made that up? [Go look at the photo with this story:](#)

"As the GOP, lead mostly by well-off white men, attempts to leverage a potential government shutdown by stripping funds for Planned Parenthood, doesn't this young woman's sign nail the subterfuge right on its head?"

How lady-like to proclaim you're little better than rutting sluts. The other signs waved by those ignorant females is typical propaganda: Stop the war on women. How absurd, but that short article redefines the word.

It's about the U.S. Constitution, stupid. And, no, it has nothing to do with the "general welfare" clause of the U.S. Constitution. We have activist federal judges still sitting on the bench who are responsible for all this unconstitutional spending "authorized" by the Outlaw Congress over the decades.

Did you notice the words "medical intervention" when referring to killing an unborn baby with a beating heart in the Sluts for Choice article? It's all in the game. As I said above, the experts know how to herd the cattle in the desired direction. The prod is your wallet, which

in the minds of the mobs is their "right". It's called redistribution of wealth and it is one of the top five reasons why this country is drowning in debt that cannot be paid. Those "budget cuts" so touted by both parties are simply buying time for the inevitable.

How many public demonstrations have we seen by "feminists" with their signs that read: Get the government out of my vagina? Well, here's a news flash for all the whining females out there: Get my wallet out of your vagina because you have no constitutional right to steal the fruits of my husband's fixed retirement to pay for your abortion.
